WELCOME ALL!!

West Houston CCA guests at our general membership meeting will include several Professional Tournament Anglers currently competing in the Texas Redfish Series, IFA RedFish Tour, and the HT Series Redfish Cup. The anglers will conduct an open question and answer seminar. These competitive redfish tournament anglers will share many details that relate to the competitive fishing arena. They will discuss preparations, strategies, conditions, bait selection, boat selection and the mental preparedness necessary to compete in any one of the various professional redfish circuits currently available. If you have had any interest in fishing competitively, this is your time to find out if the tournament circuit is a right fit for you. The anglers will also discuss how conservation efforts in the tournament arena affect all anglers both professionally and recreationally. So come share this exciting learning experience with your fellow members. Hope to see you there! Also, thanks to Budweiser for providing free beer.
